“THIS IS HOW CHANGE HAPPENS.
ONE GESTURE. ONE PERSON. ONE
MOMENT AT A TIME”

Libba Bray

Hello there!

Thanks for downloading Volta Consulting's services price guide.

This document outlines my pre-designed packages, my additional services, and their respective prices.

If you can't see a package or a service that is perfect for you, send me an [email](#) or jump on a [Discovery Call](#), and we can discuss your options.

Most of my services are delivered at fixed fees as I believe this delivers the most value. However, I offer hourly rates for those who feel more comfortable with this method.

I understand that sometimes cash flow may be a little tight. So, I do offer payment plans on most services. Please get in touch to discuss your requirements, and we can work out the details.

About Volta Consulting

Hi, I'm Narelle Wilson – experienced small business consultant and founder of Volta Consulting.

Why work with me? Well, apart from my 11+ years of small business management experience, I'm shaking up the status quo of *business as usual* for small business owners.

My vision for Volta Consulting is to make sustainable business practices more accessible for Australian small businesses. So that building a profitable business with a positive social impact – becomes the norm – not the exception.

Before founding Volta, I worked in a private equity firm as their General Manager and Group Accountant for over 10 years. My role there was diverse. One day I could be conducting due diligence on an investment or reviewing a lease agreement, and the next, negotiating funding terms or drafting a cash flow forecast.

And, if you're into qualifications, below is a summary of my education:

- Master of International Relations
- Graduate Certificate in Gender, Peace and Security
- Graduate Diploma of Applied Corporate Governance
- Bachelor of Commerce (Accounting + Business Law)
- Registered BAS Agent No 26135418 (Volta) and 25728522 (Narelle)
- Registered ASIC Agent No 49560

You can read more about my experience via my [LinkedIn profile](#).

In summary, I have experience in several industries and across all elements of running a profitable business. I aim to deliver value to my clients and empower them to build sustainable, profitable, purpose-led businesses to meet their objectives.
